Subject: FW: Planning for Oct 19 Bradford Island Public Meeting

Hi Helen,

When you get a chance could you please fill out the DoodlePoll for your availability for the dress rehearsal for the Oct 19 public meeting?

[\(b\)\(6\)](https://doodle.com/meeting/organize(b)(6))

Thanks,
Dan

Subject: [URL Verdict: Neutral][Non-DoD Source] RE: Planning for Oct 19 Bradford Island Public Meeting

Thanks so much, Dan! I have sent the Doodle polls to Helen & Rich who are planning to attend the public meeting and instructed them to fill out the poll. Julie Wroble may attend the 10/19 public meeting as well, but she is out this week, so you don't need to plan prep sessions around her (I'll share any prep work offline with her when she returns). The answer to your other question is below in red text:

Question for EPA:

I understand that EPA has expressed interest in heading a station and maybe coming with a visual display (I think Helen mentioned the CERCLA process). If so, could you share what you'd like to display at your work station? We want to make sure there isn't overlap of poster content with the USACE workstation.

Thank you! Right now, for our station we plan to have:

- 1 posterboard with the CERCLA process
- A few posterboards that visually show different remedial technologies (e.g., dredging, capping)
- Some copies of our March 2022 EPA Bradford Island fact sheet

Thank you for coordinating and please let us know if you have any other questions!

Subject: Planning for Oct 19 Bradford Island Public Meeting

Hi Laura and Todd,

We'd like to set up two meetings between USACE, EPA, OHA, and Balcom Environmental (USACE's community involvement contractor) as part of preparing for the October 19 public meeting for Bradford Island.

1. A preparation / coordination meeting next week ([https://doodle.com/meeting/organize/\[REDACTED\]](https://doodle.com/meeting/organize/[REDACTED]))
2. A virtual dress rehearsal meeting on October 17 or 18 (ideally the 17th) ([https://doodle.com/meeting/organize/\[REDACTED\]](https://doodle.com/meeting/organize/[REDACTED]))

Could you please forward this email to all those that will be participating in the public meeting? All those participating please select your availability for each within the above doodle polls.

The public notice with details for the public meeting is here:

<https://www.nwp.usace.army.mil/Media/Public-Notices/Article/3153707/corps-to-host-public-meeting-for-bradford-island-superfund-project/>

The meet and greet portion of the public meeting from 5:30 to 6:30 will be a workshop that includes different stations with visual displays (posters on easels) to discuss the main topics of the meeting. We're coordinating the preparation of our posters and displays to be printed.

Question for EPA:

I understand that EPA has expressed interest in heading a station and maybe coming with a visual display (I think Helen mentioned the CERCLA process). If so, could you share what you'd like to display at your work station? We want to make sure there isn't overlap of poster content with the USACE workstation.

Question for OHA:

Could you also confirm if you will be bringing a poster for the fish advisory(s)? I last saw that you could do printouts of the Bonneville fish advisory and fact sheets on PCBs, and were going to look into the possibility of a poster. I wonder also if you think a display should include the Mid-Columbia Advisory upstream of the dam too? For an example, attached is a screenshot from a recent Yakama Nation presentation that displayed the two advisories side-by-side.

Thank you all for your support and future participation in this meeting!
